How has high school changed the way you look at things?

Never open up to people too fast. What advice would you give the freshmen?

Procrastination is a drug and if you do it once, you'll continue to do it. Keep your GPA up to get that 4.0 your senior year.

Being surprised by my parents on my birthday with a car and when they said this is for working hard in school.

What are your plans after high school?
I plan on attending either DMACC or keep continuing my internship at Hubbell.
What advice would you give freshmen?
To get their work done and don't focus on popularity because it's not going to transfer to the real world.
What is your favorite memory of high school?
Hanging out with my friends and going to play rugby at the church at 1:00 a.m.
Why did you choose the mullet as a hairstyle?
It was originally a bet but then the mullet stuck with me and it was a statement. Plus if anyone needed to hate on me for something, I would much rather have it be my hair then something more important.
