At Abraham Lincoln High School we define "Lynx Greatness" as faculty and students who go above and beyond to help make this school Great.

Our activities director Jeff Novotny gives announcements over the intercom, and always says, "Everyday is a great day to be a Lynx." This is what inspired us to come up with "Lynx Greatness."

Every individual activity that goes on in this school has its own Greatness that gets represented throughout the book. Whether it is a sport, club, or academics each one has its own way of showing their Greatness.

We wanted to use red and blue in the book to represent the school colors and fun fonts to make the readers more interested. When choosing photos to go on pages, we tried our best to choose photos that best represented our theme, "Lynx Greatness." We got to see students showing off their school spirit and be involved in activities.

There are many individuals in the school and we wanted to try and represent them throughout the book as best as we possibly could.

The things we do and memories we make, help us look back and see all the "Lynx Greatness" that this school has. Did you make this year Great?
