# FORTNITE LANDINGS AT IHS

## FORTNITE SENDS A STORM AT IHS

One of the new trends at Indianola High School is playing the new video game Fortnite. So, we got some insight on the video game. We interviewed a student, teacher, and parent about their views on Fortnite. They had some really good opinions on the video game.

Mr. Lester said, "Fortnite is good for kids to play to escape from reality, but Fortnite can also be an addictive game. We let our son play games, but we don't let it get too obsessive."

Seth Alfstad, junior, said, "Fortnite is important because you are able to play with friends and can connect with friends on the video game also. You can also make a ton of money playing the video game if you're really good at the game."

Brennan Meacham, junior, said, "The reason it's become so popular is because of how appealing the game is to casual players. It's not a hard game, it's just fun to play with friends. Because of how the game works, anyone can get lucky and win."

All in all, Fortnite has become a popular video game through the summer and almost everyone is playing it. Fortnite left a significant mark on IHS, now what is the next trend that will leave its mark on our students?

Junior Brennan Meacham has left his mark on Fortnite. As you can see to the left, there is a IHS symbol in the game of Fortnite. Junior Seth Alfstad has played the game for hours in order to get better to beat his friends. There are many different views in Fortnite. In the game, the players have to strategize and kids of any age can play. There are a lot of different colors that set different moods for the game.

## VANS

### MAKING A MARK WITH EVERY STEP

This year at IHS, a lot of students have been following the new trend of wearing the popular shoe brand Vans. We've seen a lot of students wearing every style from checkered to pink Vans. Most students say that the shoes are comfortable and go with anything. What other trends will become popular this year?

## HYDRO FLASKS

### STUDENTS STAY TREMPL AND HYDRATED

Ande Campbell, junior, said "I think they are popular because you can put whatever you want on them, and they are cute!"

Hayden Werling, sophomore, said, "I think they're popular because they come in all different colors, and they keep your water cold!"

Eilana Zwanziger, sophomore, said, "I think they're cute, and you can put loads of stickers on them and plus everyone loves cold water!"

## STUDENTS RIDING IN STYLE

At IHS, mopeds have become a big trend. The school is seeing more and more mopeds during the warmer weather days. We interviewed sophomore Trinity Weatherall, and this is what she had to say. "Mopeds are easier on gas and they're cheaper than a regular car. The class is only one day, and it's six hours. I think they're a trend because they're so much easier than cars." Mopeds have been leaving their mark on our students and the parking lots. How will you leave your mark on IHS?

"Fantasy football is a trend because people get to manage a team and make decisions like they're a coach. Their teams play others' teams to see who is better at managing teams." Dylan Defenbaugh, junior, said, "I think it lets people have fun with a sport if they can't play themselves."

## FANTASY FOOTBALL

### MAKING TOUCHDOWNS

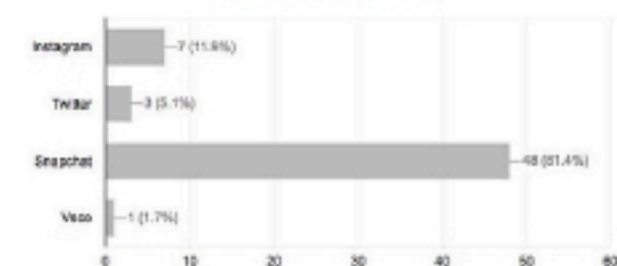

Fantasy Football has become a trend with the upcoming NFL season. Students were asked what their favorite team was and why they thought it has become a trend. Two students were interviewed about their teams and views on Fantasy Football. Cael Aldridge, junior, said,

## A COMEBACK FOR SCRUNCHIES

IHS students have made an old trend come back! Scrunchies used to be very popular in the 90's, and after several years, scrunchies are still popular! We asked junior Natasha Franzen why she likes scrunchies, and this is what she had to say. "Scrunchies are cute, and they don't leave marks in my hair. They also go with everything!" Students are bringing back old trends. What trend can you bring back?

## LET'S GET SOCIAL

### MAKING OUR SOCIAL MARK

We put out a survey asking students what they think the hottest social media is. The survey gave them four different options - Instagram, Twitter, Snapchat, and VSCO. The picture to the left shows the students' results.
