

5 YEAR IN REVIEW

During the middle of **July**, the entire staff gathered for our first summer camp. The four days were filled with many activities to kick off our year including getting a head start on our ad sales. In **August**, the staff was excited to begin working on the book. The three editors and our adviser continued the progress with the book by attending the editor workshop in **September**. That was where the cover of the book was born. **October** was our busiest month with many of our favorite photo assignments, football games. That month we also took an all day trip to Iowa City for the IHSPA State conference where we received awards for our 2017-2018 book. In **November**, seven of our staff members hopped a train to Chicago to participate in the JEA National Convention.

Christmas was celebrated the entire month of **December** in yearbook. On the last day before winter break, we held our annual Secret Santa party. **January** was when we enhanced our photography skills with a brand new ring light. The most challenging part of our year took place in **February**. Our adviser had a baby, which left us on our own for nine weeks. **March** was when we received our official staff shirts, which finally revealed our book's theme to the entire school. As a culminating activity in **April**, we ordered way too much popcorn and passed it out to all the teachers in the school to thank them for all they do for us all year long. It was a whirlwind of a year, but the memories we made will hold a place in our hearts forever!
