

# IN CLOSING

We can all agree that the 2019-2020 school year was one for the books. Literally. As a staff, we did our best to capture the moments and memories that made this year what it was. Our pages between school and quarantine coverage are all mixed together, truly showing what a unique year this was.

So, in closing, we wanted to leave this last page blank, for you. We wanted to give you a spot where you can record, with all the other records of this year, what YOU will remember most about the 2019-2020 school year. Use this page as your own personal memory book-attach pictures, write notes, doodle, whatever is meaningful to you, and something that you look back on and remember years down the road.
