OF JUNIORS BORN AND RAISED IN DAVENPORT

"I've lived in Davenport my whole life. I went to Monroe kindergarten through 5th grade, and I went to Smart for middle school. I like Davenport because I like being close to the river. After high school I'd like to stay here, because I have a lot of family in the area. The only thing I would change about Davenport would be the weather."

-Joshua Cantu '21

60

years open

"Through the years, I've seen quite a bit of changes. I have three older siblings so I have seen West go through a lot of differences. Certain clubs and stuff are different, there was a lot more variety and now they are more basic. Compared to my sister's graduating class, ours is much smaller." -Erika Contreras '21

"My mom went here in 1987. I've looked at her high school yearbooks, and looks back then were very different. The girls' hair was always frizzy and big, and the boys always had slicked back hair with grease. Before this building was built, it was a cornfield for farming land. I think it's pretty cool because of how much change has happened since then." -Devin Dahlhauser '21

"My mom went here and many of the teachers she had call me by her name because we look so much alike. Any time we are at West for a sporting event, she tells me how much the interior has changed. The gym and sporting events have changed a lot since she was there too." -Brianna Blake '21

athletes

1 "I went to San Diego about four years ago with my family. It was really cool to see the beaches and the food that we got was really good."

-Nolan Ware '21

2 "I went to Alabama for my cousin's birthday party. My favorite part was swimming at the hotel. Before we left, we had a surprise party for my mom, and we all made her cry."

-Izaliyah Ousley '21

TRAVELING WEST

3 "I went to Kentucky for a funeral, but I got to reconnect with my dad's side of the family. The views there are really nice. The best part about the trip was seeing the mountains and exploring."

-Taylor Williams '21

4 "The farthest I've gone on vacation was going to Canada. We went to Niagara Falls. The most memorable part was going to the gift shop; I picked out a camera keychain that would change pictures of the waterfalls when you clicked it."

-Allie Young '21

5 "I went to Vietnam for vacation. I liked going to the beach and eating food. I also got to meet my aunts there that I had never seen before, and that was my favorite part."

-Shonda Nguyen '21

6 "For vacation, I went to the Carribean for roughly two weeks. Standing on the beach of Honduras was really memorable. The water was crystal clear and amazing. I had a great experience with my family and hopefully I can go back when I'm older."
