

what **YOU** DON'T see TORCH 2020

but what don't you see?

You don't see the **memories**. The seniors' four years of endless memories—in 2020, cut too short. Now they are off to make even more, with immense Lynxmen pride in their hearts.

You don't see the **commitments**. The endless hours of practice and rehearsals, making us better Lynxmen every day, both physically and mentally.

You don't see the **achievements**. There is such a thing as physical achievements that can be counted: trophies, medals, ribbons, titles, plaques, etc. And there are mental achievements: breaking through barriers, conquering our opponents, and leaving the past behind us.

You don't see the **personalities**. The contagious laughter, the endless learning, the tears shed, and the growth all around us.

After a year like 2020, pay attention to what you don't see.
