Nolan Mensen

Ever since his first trip to Canada in third grade, Nolan Mensen (9) has enjoyed his annual fishing trip.

Every year around the last week of school, Mensen, his dad, and their friends travel to Lake Packwash in Ontario, Canada, to spend a tech-free week in a cabin away from worries.

"It's really cool to be able to take a week off of responsibilities," Mensen said. "I just have to worry about how many fish I am going to catch and where the bears and moose are so I don't get eaten."

Mensen has caught many different types of fish over the years in Canada. The biggest fish being a 42.5 inch Northern Pike.

During their time in Canada, Mensen and his dad also enjoy cooking the fish they've caught over a campfire at night. "It feels good to catch and earn the food we eat throughout the trip," Mensen said. "Working for the food before you get to eat helps you appreciate it."

Alexa Harbach

Following in the footsteps of her older cousin, Alexa Harbach (9) joined the Waterhawks Ski Team when she was 7 years old.

"(My cousin) started skiing before I did," Harbach said. "She was like my role model growing up so basically anything she tried, I tried too."

Harbach and her team practice at Eagle Lake near Waterloo. From February through August, Harbach spends up to four days a week traveling to practice.

The Waterhawks' summer consists of 10 shows and two competitions:

Regionals and Nationals. "I remember my first time going over the jump and I got stuck on top of it!" Harbach said. "I'll never forget how hard I was laughing."

Harbach and her team placed eighth at the National Show Ski Tournament in the summer of 2019 in Warsaw, Indiana. Harbach's favorite memory comes from D1 Nationals when she and her team were able to build the only five-tier pyramid.

"I've had so many amazing experiences while traveling to new places throughout the summer," Harbach said.
