Entertainment Trends

Every year, different entertainment trends come in and out. Teens are usually in the center of the trends. There's always something new that teens are interested in and like to do.

Air Pods

Regardless of the place and time, music has always been a part of entertainment. Now, Apple's AirPods offer a cool new way to experience music. AirPods are like earbuds, but wireless. They operate using Bluetooth, so there's no need for a wire. Retailing for about \$160 from Apple, AirPods are a cool new way to experience music.

Tik Tok

Another trend teenagers like is looking at Tik Toks. Tik Tok is an app on your phone where people make funny videos or lip

sync to songs or comedy routines. They are entertaining to watch and are fun to make. It's a way for students to relate to each other. Friends can watch together, and perhaps make Tik Toks together.

Penny boards and Longboards

Penny boards and longboards are also coming back in Pella. Penny boards are a little smaller than skateboards, and longboards are longer than skateboards. High schoolers are getting their boards back out and are enjoying riding around on them. The most popular time is at night when there aren't a lot of people out.

Why YOU Should Be Watching Game of Thrones

"Have you seen Game of Thrones?" has passed through the lips of countless superfans in the past month. For those who haven't seen the uber popular HBO series, this can get annoying really fast. Maybe it's for this reason some people steer away from watching the show and refuse to watch. Well, I am here to convince you to sit down and watch Game of Thrones, despite any preconceived notions. Before we begin, please note, Game of Thrones is rated for mature audiences, so keep that in mind before watching.

Everyone else is doing it. If all your friends jumped off a bridge, would you too? Honestly, yes. There's a reason SO many people are watching Game of Thrones. In fact, according to Time Magazine, Game of Thrones is the most popular show in the

world right now. Now, how could that many people be wrong about a television show?

You will fall in love with the characters. Game of Thrones has the perfect mix of loveable and hateable characters. For instance, viewers wanted Geoffrey, an universally hated character, to suffer with just as much passion as they want Arya, an extremely popular character, to succeed.

The production quality seemingly transports you right to the 7 Kingdoms. Every time I am watching Game of Thrones, I can't be bothered by anyone around me. It's like I live in their world for the hour long episode. The costumes, cinematography, acting, and script make the very fictitious plot feel extremely real.

Of course, everyone has different interests, but I really recommend you give Game of Thrones a shot. Love it or hate it, at least you will understand all the memes online. Now I just have one last thing to say, "Have you seen Game of Thrones?"
