BOP TO THE TOP

"My all time favorite hype song before going into a game is '21' by Polo G because every time I listen to him all I can think about is making big plays and playing the best I can for my team."
-Duy Tran '23

"'Ready for War' by Major Nine is an amazing song to listen to pre-game because it is almost like you are going onto a battlefield, ready to attack and let all of your problems out on the other team. The song talks about soldiers ready for battle, and I can easily relate our opponents to enemies we need to defeat in order to win."
-Lee Jensen '23

"'Going bad' by Meek Mill and Drake gets me pumped before a game because of its beat and how the song is laid out. The words and how the artists sing them make me want to storm the field and go crazy."
-Cayden Niles '24
