CELIA BROWN

Celia Brown is a highly involved student who makes time for her artistic talents, clubs/extracurriculars, and school work. Music is very important to this freshman as she includes flute lessons, art classes, QCYSD symphony, and spartan band. Celia explains her love of the arts, "artistic activities are very important to me and the symphony which I joined, although challenging, is very exciting and helpful to my growth as a musician." She has many passions within school as well, for example, reading and writing which caused her to take honors English. Celia also enjoys strengthening her community and the student body as a freshman class representative for Spartan Assembly. "Some of my favorite memories from Spartan Assembly were trick-or-treating for cans and collecting food for the food drive. I hope to be a part of the Student Hunger Drive in my sophomore year. I also joined GLI this year because of my love for building a community and learning about different perspectives on worldly issues," said Celia. This freshman's involvement and dedication to her passions and education holds a high standard for students at PV.
