

Graduation:

Do's and Don'ts

Sara Perdue, Editor-in-Chief

Graduation is the day almost all high school students look forward to. The graduating part may not take a lot of effort, but planning for it takes a lot more.

Knowing where to order your cap and gown and how to get to graduation rehearsal are some of the many things seniors should know before it is too late.

Graduation for North High School seniors

will most likely take place at the Drake Knapp Center on May 30th at 7:30 pm. These plans may change due to COVID-19, however as of right now seniors are planned to graduate accordingly.

Throughout these difficult times, everyone should be thankful to still have a graduation regardless of restrictions and extra precaution for family and students. The staff at North have

worked hard to plan a better graduation for seniors this year after seniors last year did not get the graduation they deserved.

Any other questions can be answered by one of North's associate principals, Jessie Masteller. Masteller can be contacted through email or through Microsoft Teams.

Check your student email everyday for more information on graduation and other events.

Caps and Gowns

Caps and gowns can be ordered through herffjones.com.

DO: Order before graduation and graduation rehearsal.

DON'T: Order too late. Caps and gowns are required for the ceremony.

Rehearsal

Graduation rehearsal is usually "Class Day" where walking and placement is practiced.

DO: Get the latest information on when rehearsal is and when you should be ready.

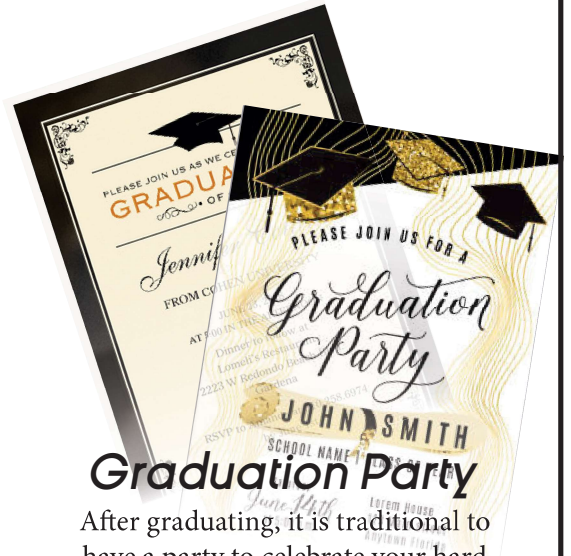

DON'T: Wait too long to figure out times and how to be prepared for it.

Final Classes

There are many classes needed to graduate, like certain math and English classes.

DO: Talk to your counselor to see if you have all of the classes you need, and when you can make up classes/credits.

DON'T: Wait until May to contact your counselor, you could need more classes.

Graduation Party

After graduating, it is traditional to have a party to celebrate your hard work. This also gives a chance for friends and family to visit and give gifts.

DO: Decide if you want a party during COVID-19, and who you want to come.

DON'T: Have a party if you are not prepared or concerned.
