“The Marion Library is an excellent place to check out books of all kinds. We also offer a lot of digital resources. We have Manga available and our new library will have an expanded graphic novel section for YA. We also have digital resources for homework help, test-taking and research on our website.”

“I buy my books from Barnes and Noble and I get my inspiration and book ideas from Tik Tok.

I like reading because it gets me away from the negatives of social media and books are more detailed than movies and TV shows”
