## MEET THE ARTIST

**Q: Tell us about how you got into art?**

**A:** "I got into art because I saw someone in class a long time ago draw and I asked her if she could show me how to draw and she did, and I'm still friends with her seven years later."

**Q: What is your favorite thing to draw?**

**A:** "My favorite thing to draw are my [original characters] and designing new characters."

**Q: How did you come up with these characters?**

**A:** "These characters already have their own world and concept, I just decided to make them more 'human' to make them a part of this comic."

# MEET THE CHARACTERS

Haneul | She/Her | 23

Haneul deals with too much stress which has led her to grow grey hairs early. She doesn't show much emotion or really speak. If she does speak, it's not many words but it's something. She only speaks a lot if it's with the other three. She's here only to help the other three get through life without casualties but that's been failing.. I wonder why?

Bug | They/Them | 18

Bug is a senior in high school, and although they may not have any academically or athletically, they specialize in cooking, and love to study insects! Bug is also extremely shy, and really only interacts with their family. This makes it hard to communicate with others, so Bug doesn't really have anyone to talk to. Paired with their peculiar looks and mannerisms, just who, or what, is Bug supposed to be?

Aurora | She/Her | 20

Aurora is the most social out of all the 4 and usually always does all the talking for bug when they don't want to speak. She and Alex are dating as well. She's currently going to college but stayed near home so she could help bug out with high school stuff and all of that. She suspects something from bug and alex but she doesn't know why?

Alex | She/They | 21

Alex is... who knows but, Alex is in Highschool? I don't know what happening now, they definitely ~~got~~ ~~is~~ ~~in~~ ~~high~~ ~~school~~ Alex is the athletic type and is very outgoing and mischievous that's for sure. She's is also dating Aurora. Why do they have blue ear tips and fingers? What's going ~~on~~ ~~with~~ ~~them~~?
