Another year gone, another memory made, and another mark left. One year seems like a long time, but as soon as it comes, it goes, and we are only left with a picture of the past. The memories, the laughs, and the triumphs will stay close to our hearts, while the problems that seemed important will slip away. Each of us, while making memories for ourselves, has left an impact on not just our school, but others around us. As we move through life, moments will flash by, but the mark we leave will remain forever.
