

Getting in STYLE

Women

Sweatshirts, scarves are popular

With the fall season ending and the winter season about to start, not only will the air get cooler but so will the fashion styles.

Mackenzie Ray, a cashier at Dicks Sporting Goods who watches the changing of styles everyday as she works, said, "The most popular clothing item this season is probably sweatshirts and that's for both boys and girls."

Not only are the plain hoodie sweatshirts popular but so are the half zip ones and hoodless sweatshirts. Mackenzie believes that North Face is probably the most popular brand during this time, and that deals are better during the fall and winter times. North Face products can range from \$100 to \$175. So now is the time to do your holiday shopping if you want to get the hottest clothes.

Bailey Bow Ugg boots and Combat boots are the latest fall and winter fashion for shoes. To go with these stylish boots you can also accessorize with boot socks.

Taylor Robinson of Plato's Closet said one brand of jeans sells well. "Miss Me jeans is one of the most popular clothing item because most places they are almost \$200, but here we sell them for \$40 which is about the cheapest you will find them," she said.

Plato's Closet has a lot of in style clothes like the brand PINK from Victoria Secret and Hollister. All clothes are secondhand, so they will always be cheaper there than at the big brand stores.

There is no need to give up keeping warm for style, scarves are very in style lately they are good ways to complete any outfit and make a throw together style look like runway ready.

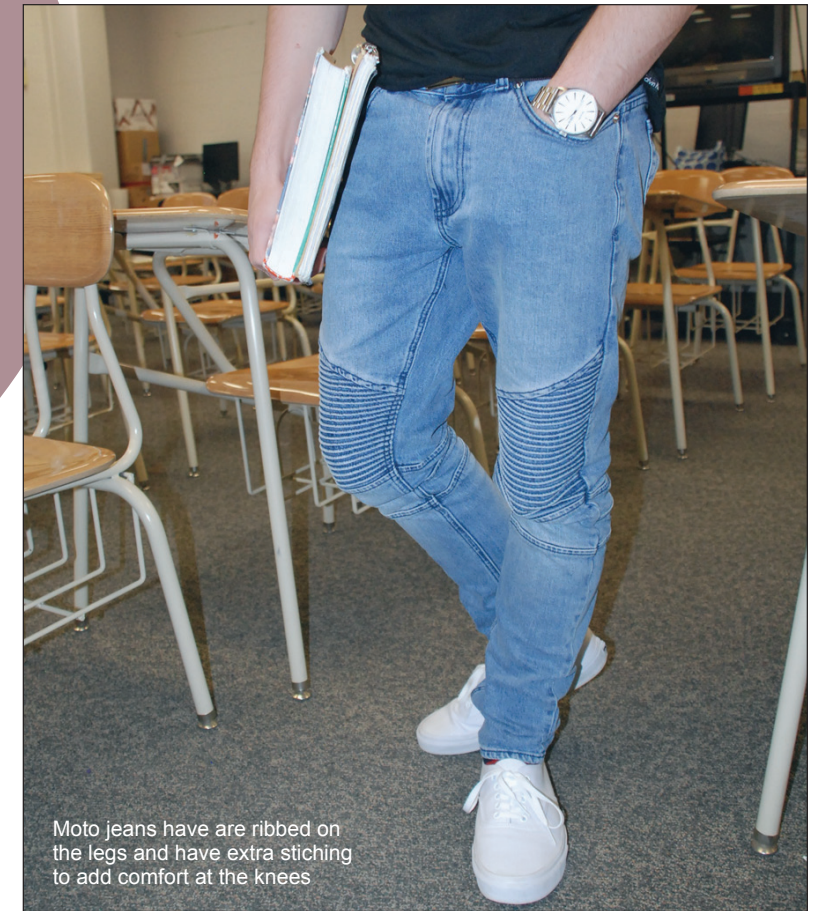

Every year Ugg boots have been the most popular winter shoe for girls. Lately they have been worn with sweater socks that go up to about your calf and will keep you warm for the whole winter.

Popular fall colors include reds, grays, browns and blacks. You can commonly find in flannel shirts and scarves.

Men

The new casual wear is in

Casual wear for men is a wide variety of different styles and brands of clothes and is constantly changing. It will vary for each person, but some styles have most of the attention of teens.

One of the most popular styles that have came in is floral designs. The design has made its way from the pocket to a shirt all the way to covering an entire shoe. The same goes to the tribal print appearing on a lot of different shirts.

Some of the larger brands such as Hollister have started to become less popular and being replaced by other street brands such as Obey Propaganda and Diamond.

A very new and odd but yet trending style is on jeans and is called Moto denim. These kinds of jeans have a ribbed pattern usually right above the knee and more stitching than a normal pair of jeans.

Shirts have even been altered. They have introduced the longer length T's that are like any other kind of shirt, except with a longer length on the body. You can pick all of these new trendy brands and styles at stores such

as Tilly's, Zumiez, and Pacific Sunwear.

Athletic clothing is always a big hit no matter what season, but we're not talking about basketball shorts and bro tanks. The new style the last few seasons has been soccer pants. These are like sweatpants but aren't as baggy and get tighter at the ankles.

For shoes, Nike is a very popular brand, and the 5.0's are the latest model. The shoes are flexible and have many different designs like no other shoes.

For shirts UnderArmor, Addias, Nike, and North Face are very popular. Nike has their famous "Just Ddo It" shirts that are always in style. Addias sweatshirts are very popular too you can get them in almost any design you can dream of.

The latest hairstyle is the man bun. Not only are your classmates trying this crazy hairstyle but famous people like Harry Styles and other singers and actors enjoy this funky look. Students at West High School have mixed opinions about these new man dues. Many say that it just depends on who you are, others say it's a flop.
