ENTERTAINMENT

HOW TO GET INTO:

guys do?

OLLECT START HERE! I want to try out their pop/

elcome to the wonderful world of Avey Tare, Panda Bear, Geologist and Deakin — otherwise known as the acclaimed experimental pop band, Animal Collective. Formed in 1999, the group has since generated a vast and incredible discography, releasing albums with contributions with any or all members. From album to album, the band never sounds the same — endowing each creation with a unique route of sonic exploration and a personality of its own. This is not your average listening experience. Winning the hearts of fans through the years with its profound exploration of what music can be, Animal Collective is now set to release its 10th studio LP, titled Painting With, on February 19th. Now is the perfect time to join the bandwagon and delve into what this band is all about; however, with such an immense discography, it can be a little intimidating. Try out this handy-dandy flowchart to help get your bearings — and maybe discover some of your new favorite albums.

I want to dig right into

Digging the energetic instrumentation

accessible material first

Merriweather Post Pavillion

Fall Be Kind

Panda Bear

Digging the loops and

samples, pop vibes

Meets the Grim Reaper (Panda Bear)

I love Panda with all my heart

(Panda Bear)

Tomboy (Panda Bear)

Digging the

whimsical

rospect Hummer

Holy cow, "Visiting Friends" is amazing

Campfire

Young Prayer (Panda Bear)

Noise is cool

Danse

Manatee

Water Curses

Strawberry

I love these guys. Can I hear my favorite tracks in a cool live setting?

Live at 9:30

Yes, more

alien pop

Transverse Temporal Gyrus

Gotham

I love the way AnCo experi-

ments. Are there any hidden

gems, lost in a magical

metaphorical forest of fleet-

ing childhood innocence?

... I'm glad you asked.

Spirit They've Vanished

I like Avey

Down There (Avey Tare)

Loving the percussion

and screaming

Here Comes the Indian
