

NEW IN SCHOOL

There has been some new changes around the school for the new school year. Not as many early out dismissals, the bagged milk, sophomore retreat, soon to come renovations, even a whole new security system around the school. Some of these changes are seen as irrelevant by the students, so why change them in the first place?

“The milk here is weird, but surprisingly I like it better than the cartons,” says junior Tristan Jones, a new student here at LCHS. One of our

administrators, James Haver, informed us the reason why we changed the milk to being bagged is because it is cheaper to package.

There’s only 5 early outs this year because the district switched our system from days to hours. Instead of the school year being 180 days, it is now around 177 days. “I think it’s a good thing because since we go off of hours now, we are planned to get out of school sooner in July,” says junior Erica Smith.

The Youth Frontiers came here on Friday, September 18th and pulled the sophomore grade out of their classes all day to

participate in activities in which include music and games for team bonding and to teach them about respect for themselves and others. “The morning was boring but in the end everyone was crying and it was cute!” says sophomore Hannah Myers.

There will soon be renovations in the office. They’re planning on moving around the structure of the offices and raising the attendance and activities desks. The administration is making these changes just to improve staff privacy and safety.
