## Now You See Him...

Joe Law is a skillful magician who can deceive the eyes far too often. You can catch him in the hallways amazing unsuspecting students and staff members with his sneaky tricks. His favorite magic acts include the ones with his deck of cards.

Joe was inspired to take up the art of magic after watching a magic show and has since been practicing every day. He asks his friends and family for constructive criticism before performing a trick at school to make sure that it looks convincing.

"My favorite part of being a magician is having the freedom of making my own tricks," Joe explains. This way, he can always keep his audience on their toes and every move is unexpected. He hopes to keep up with magic for as long as he can.
