

STEMi Experience

Hudson was selected to be part of a pilot group to explore a STEMi. This semi filled with opportunities for students to explore science, technology, engineering, and math. The first group introduced to the STEMi were grades 7-12 and 3rd grade, who used the 3D-technology to explore layers of anatomy and the wonders of nature. Though it was one facility, the experience varied for all learners. "(The freshmen) have a perspective, the 3rd graders have a perspective, the teachers have a perspective. We all have a different perspective (of the technology)," said hs science teacher John Paulson. The STEMi later returned to Hudson so that other elementary students could explore the technology.

Techno Wizards

3rd graders run towards the STEMi for a quick picture. | HS social studies teacher Paul Simmer plays with the 3D computer.

CALIFORNIA DREAMIN'

Over spring break, hs band students traveled to California. While there, they visited many well known sites, such as Griffith Observatory, saw a Renaissance show, and participated in a clinic at SDSU.

Freshmen **Abi Henderson**, **Morgan Kegebein** & **Mikaela Meyer** along with juniors **Maddie Hartleip** & **Lauren Murray** huddle together for a cold picture on the sand while at Mission Beach.

After a five day stay, band members said goodbye to California with a trip to Universal Studios.

On the plane ride to California, **senior Alli Weaver** asked **sophomore Caleb McCullough** to be her date to prom. McCullough said yes.

At the San Diego Zoo, freshmen **Nathan & Elvaray Wike** get up close and personal with a lizard.

Junior **Holden Caloud** poses with a fake seal at the zoo.

Marvelous Soloist

6th grader **Levi Budreau's** gives his first public jazz solo at the 31st annual Fill the Aud concert. During this two hour show, people saw the hs and jh show choirs perform five songs each. The audience also got to experience the smooth tunes from the hs and jh jazz bands. That following weekend, Budreau won honorable mention for Best Soloist at NEIBA. He was the only 6th grader to do so at this competition.

Jazz Champs

Freshman **Abi Henderson** accompanies fellow freshman **Johnny Hartleip** during his jazz solo at the NEIBA competition hosted at Hudson. The Hudson hs jazz band competed against 20 schools, but by the end of the day, Hudson earned the highest score of the day and won 1st in Class 1A. This ranking also led to an invite for the band to perform at the state competition in April where they would go on to place the highest for any Hudson jazz band to date.
