

*All friends and activities aside,* we come to school every day to better ourselves for the future. We are lucky to find a huge variety of classes available to us. Whether you are a science and math person, a language arts and social studies student, or a clay and choir kid there

is always a place for you. From AP Physics to Culinary, Reading the Screen to Government, Newspaper to Spanish, there is always work to be done. Thanks to the special teachers that have imprinted on our thoughts and futures and thanks to the classmates who have sent us their homework.

## ACADEMICS & ORGANIZATIONS

math **6,7**  
science **8,9**
