## YEARBOOK

We each have different qualities, different opinions, different interests. While some enjoy staying after school to play in the Board Game Club, others choose making blankets for Art Club, challenging themselves in Hudson's first Advanced Chemistry class, or spending time learning how to work their new laptops. Despite these differences, we still find that our paths, our journeys, our lives connect. What has made this year a memorable one is both how we unite and how we are unique.
