

be involved.

What was your scariest winter driving experience?

"On our way home, we hit black ice and spun three times. I was so scared I started crying."
• Samantha Carey (10)

"I was going to work at 5:30 a.m., and my truck slid into the ditch."
• Mitch Ryan (12)

"I slid into the ditch going around the corner on gravel. I didn't freak out because I had been in the ditch twice before."
• Alexa Holtz (12)

unmasking history.

Students faced a sticky situation in completing their inspirational masks in Foundations of Art.

After researching the history of masks, students created their own. Destiny Rounds (10) enjoyed the mask project.

"They all turned out really neat," Rounds said. "After they were done, we all got to paint them however we wanted to!"

Although the students had fun creating the projects, they encountered a few bumps along the way.

"Once I had the plaster on my face, everyone made me laugh," Sammy Engelken (10) said, "so the plaster on my face would crack!"

The girls in the class faced problems of their own.

"All of the girls freaked out when they took their masks off because it took off all their make-up," Rounds said.

Students also encountered a dry, crusty residue from the plaster on their faces.

"My face felt weird all day," Rounds said.

"I love making projects that you can use later on. Art classes let me be creative!"
• Jessica Hilby (10)

1. Putting the final touches on his ceramics project, Kaleb Sparks (9) applies a layer of glaze.

2. Peyton Dugan (11) sketches her final project in Drawing I. Students created a collage drawing for the final project.

3. Macy Gudenkauf (10) applies plaster to Sammy Engelken's (10) face, creating a molded impression in Foundations of Art.

crafting creations.

Using their imagination in Art Appreciation, teacher Jolene Pitzenberger Timp and Justine Joslyn (12) participate in troll hunting. Students walked to Tirrill Park to participate in this activity.

In Foundations of Art, Destiny Rounds (10) spreads vaseline on Angel Wright (10) before applying plaster to her face.

Creating a flower pot, Haley Bliss (12) smooths down her clay in ceramics.

Joel Ott (11) creates his non-utilitarian slab project in ceramics.

a fruitful fundraiser.

1. Sorting boxes of pineapple, Jessica Dudak (11) prepares to deliver the FFA fruit.

2. Allison Klostermann (11), Lauren Monaghan (12), and Elizabeth Koloc (9) sort through the boxes of meat. Customers could order a wide variety of fresh fruit, meat, and cheese.

3. Michael Carroll (11) and Blake Schrader (10) load boxes of fruit into vehicles. 4. Gathering all of her meat orders, Bethany Schnieders (10) prepares to deliver. The FFA members sold 13,887 pounds of fruit this year.

testing the senses.

1. In a psychology class experiment, Josh Goodwin (11) tests the hearing ability of his classmate by playing the prerecorded voices of various staff members for Kelsey Casey (11).

2. Jordyn MacDonald (11) tests Mason Steffen's (12) sense of touch by poking his hand with the ends of a paperclip.

3. Conducting his experiment, Dallyn Putz (11) runs his test on classmate Quentin Mensen (12). Mensen took on the challenge of naming three different flavors of water.
