

High school isn't a walk in the park. There wasn't a yellow brick road that lead each one of us through the mysterious world known as high school. It started with the pulsing nerves and jitters on the first day of freshman year, when you buckled up on an emotional roller coaster. Without realizing it, that ride guided you through many different stages of yOUR life. Maybe it was perfecting that winning play to beat **OUR** lifelong rivals, astonishing the crowd during the drama production of **OUR** Town, or dancing the night away at Homecoming.

With new opportunities came new challenges. There were fights with yOUR best friend, stressing over yOUR algebra final, and times when you tried to catch a second of sleep after yOUR extra curricular activities. Without hesitation, the Titans of the 2013-2014 school year faced such events as if it were their sixth sense. With 'Believe and Achieve' in **OUR** minds, we were determined to reach new heights for **OUR**selves, break tradition for the school, and continue the legacy of what being a Titan truly means.

Through trial and error, we slowly progressed into knowing who we were, who we are, and who we wanted to be. After what might have seemed to be the longest fOUR years of **OUR** lives, the moment we accepted **OUR** diplomas it had all been worth it. These high school experiences contained the highest of highs and the lowest of lows, but nobody faced the quest alone.

It's **OUR** journey.
